

Ötzi the ancient iceman debuts on NOVA and at the DNALC

Preserved in ice for 5,000 years, Ötzi offers a rare glimpse into humanity's past. A NOVA special on Ötzi debuts later this month on PBS—but to experience standing face to face with him, you must travel either to Italy or to our DNA Learning Center.

CSHL unites with other US cancer centers to urge HPV vaccination

About 79 million Americans are infected with HPV today, yet the nation's HPV vaccination rates remain low. To change this, all 69 NCI cancer centers, including ours, have joined forces to send the message that HPV vaccination is cancer prevention.

bioRxiv gets quicker with direct-to-journal submission feature

Created by John Inglis and Richard Sever of CSHL Press, bioRxiv is an online tool that allows scientists to make their findings immediately available to the scientific community. Now, scientists can also use bioRxiv to submit papers directly to journals.
